

KUKA Wrench Tool for MC4 Series

This wrench is designed to crimp solar connectors onto 14/12/10AWG(2.5/4.0/6.0mm²) solar cable; this crimper is the perfect tool for installing and maintaining solar panel connectors. Precise crimping die design and complete locking ensure high-pressure connection quality during repeated crimping, and high transmission force is controlled according to levers to reduce work intensity. The portable handle is ergonomically designed and lightweight. Convenient for outdoor installation and construction.
